Code
this is my cool malwar script!!

Description
description of my malware code arcitecture is this:

```

incridibel h4xxer l33t ransomwar
way in workings:
 - sTep 1: encrypt data
- step two: send data to C2 SERVER
 - step 4: crate backdor (or as i likes to call it, hackdoor >:D )
 - step 5 - remova traces and be invicible/anonymos
```
